RE: WEEKLY STATUS UPDATE – ENGLEWOOD YARD NORTH BYPASS PROJECT UNION PACIFIC RAILROAD HOUSTON WOOD PRESERVING WORKS SITE 4910 LIBERTY ROAD FACILITY, HOUSTON, TEXAS POST-CLOSURE CARE PERMIT NO. 50343, INDUSTRIAL SWR NO. 31547

Dear Ms. Hatfield:

WSP USA Inc. (WSP), on behalf of Union Pacific Railroad (UPRR), prepared this final status update for the Englewood Yard North By-Pass Project (the Project) that includes areas of construction within the UPRR Houston Wood Preserving Works (HWPW) site (the Site) (Post-Closure Care Permit No. 50343) located at 4910 Liberty Road, Houston, Texas. Below is the final update for Project activities conducted at the Site:

Construction activities performed since the last updated submitted via email on August 12, 2023, were the disposal of the remaining stormwater and stormwater storage container sediment that was generated during the installation of the signal bridge foundations. Disposal of the stormwater and stormwater storage container sediment took longer than anticipated.

Dust Control and Air Monitoring

Since no soil excavation activities were performed within the HWPW Site, Dust Control and Air Monitoring was not conducted.

Soil Management

Approximately 20 CY of sediment was removed from the stormwater storage container and deposited into lined roll-off containers with secondary containment. The roll-offs are staged at the HWPW Container Storage Area (CSA) and then disposed of.

Stormwater

There was no rainfall during this reporting period that resulted in management of stormwater within the Project Area withing the Site.

This is the final update for this project. Construction activities have concluded and UPRR will submit the RACR under the post-response action care plan in the RAP by December 29, 2023 (60 days).

If you have any questions or need additional information, please feel free to contact Mr. Kevin Peterburs of UPRR at (414) 267-4164.

Sincerely,

WSP USA Inc.

Anthony Reid, P.G.
